# Daiquiri 70VL

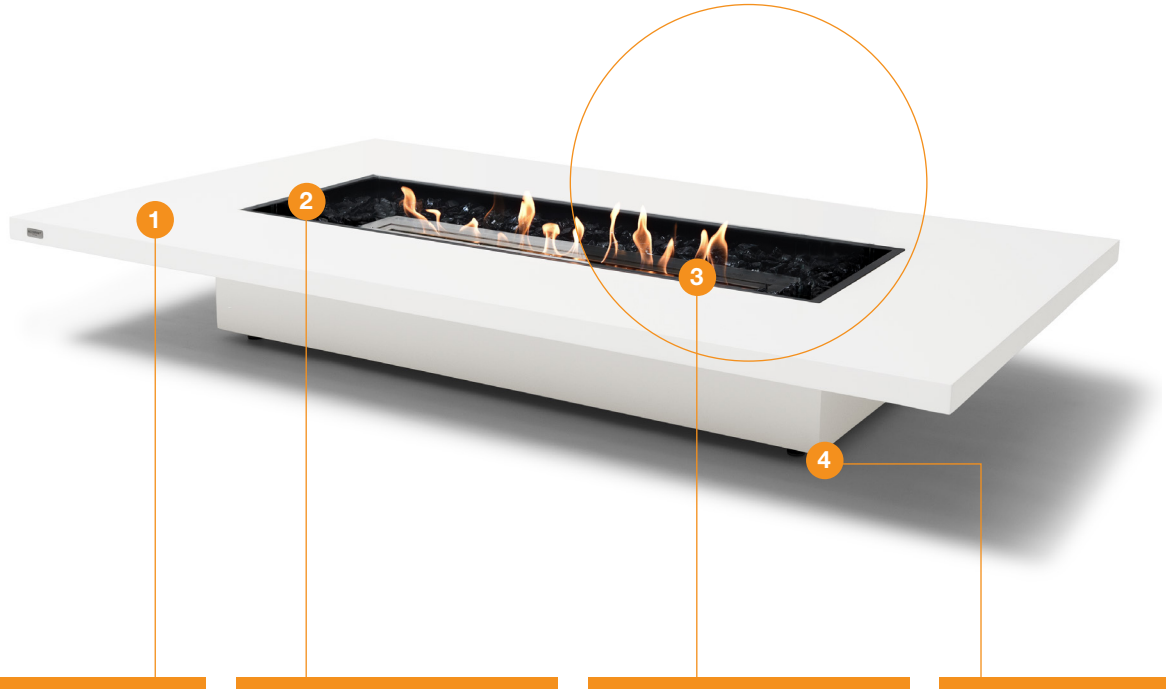

ecosmart Fire

**Perfectly detailed, clean-lined strong design with a sturdy, recessed base and slimline tabletop to reduce the visual footprint and give the appearance of a floating table.**

# Daiquiri 70VL

## Design Features

### 1. Fluid™ Concrete Finish

Incredibly strong yet relatively lightweight, EcoSmart's concrete products incorporate revolutionary Fluid Concrete Technology. Fluid features a stain and impact-resistant barrier that protects the concrete from environmental weathering – even under extreme conditions and long UV exposure.

### Surround Colours/Finish

Available in three Fluid™ concrete colours: Natural, Graphite and Bone.

### 2. Decorative Media

Models come with black glass charcoal to add the finishing touch. They do not emit any toxic fumes, smoke, or ash.

### Quick & Easy Installation

With no installation or building works required, simply unpack, put into position, and off you go.

### Handcrafted Artistry

In a world where speed and automation dominate production, we take a different path. We cherish the irreplaceable qualities of handmade work, which is why each of our concrete tables are crafted by human hands with painstaking attention to detail.

### 3. Burner Colours

Available with a Stainless Steel or Black Burner.

### Environmentally-Friendly

Bioethanol fireplaces use an environmentally-friendly, renewable energy source that burns clean and delivers warming heat. You and your guests will enjoy the ambiance and tranquillity of a real fire, without the hassles of burning real wood - no more embers, ash, and soot to clean up.

### 4. Articulating Feet

Our Fire Pits and Tables feature 360° height-adjustable articulating feet, so you can achieve a perfectly level and stable model before operating the fireplace.

### Ground Fixing Brackets

Models come with fixing brackets for permanently locating into a fixed position.

### Global Compliance

This model complies with existing standards in the USA, Europe, UK and Australia. O-TL listed to UL 1370, EN 16647 BSI Certified and ACCC Safety Mandate compliant for bioethanol burners.

## Accessories

### Included

**Decorative Glass Media**

Our decorative Black Glass Charcoal is made from high-quality tempered glass.

**Jerry Can with Safety Spout and e-NRG* bottle adaptor**

Jerry Can allows safe storing/decanting of e-NRG ethanol. The e-NRG adaptor connects the Safety Spout to an e-NRG fuel bottle.

**Lighting Rod & Lighter**

The Lighting Rod is designed to safely adjust the slider position on the burner. It is also used for the ignition procedure.

**XL Baffles**

Placed over the internal burner vents, they serve to increase the efficiency of the burner as well as further stabilise the flame.

### Optional

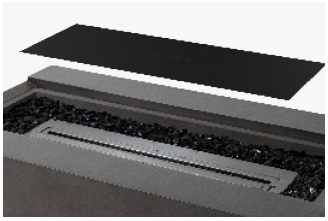

**Glass Fire Screen (L50)**

Screens help to minimise the impact of wind on the flame and reduce fuel consumption.

**All-Season Cover (LT70.L)**

Protect your investment with our water-resistant custom outdoor cover, featuring PVC cones to prevent water pooling and fit models with a Glass Fire Screen.

**XL900 Silicone Burner Cover**

Placed over the burner, the black silicone burner cover protects the burner from the elements when not in use.

**Glass Cover Plate (L50)**

Enables fire pit tables to easily be transformed into a usable coffee table surface.

**Floor Mat (LT70.L)**

Heat-resistant silicone Floor Mat for added surface protection. Highly recommended for porous surfaces such as timber, natural stone, unsealed concrete, or indoor surfaces like carpet to help prevent moisture buildup.

*e-NRG not available in all countries.

## Specifications

ESF.O.DAQ.70

**Product Dimensions**

L 1,800 mm [70.9 in]
W 1,000 mm [39.4 in]
H 250 mm [9.8 in]

**Weight (approx)**

112.5 kg [247.4 lb]
Weight includes burner and media.

**Product Materials**

Fluid™ Concrete Surround; Grade 304 Stainless Steel (Optional Black Ceramic Coating) Burner.

**Surround Colours**

Painted Fluid Concrete:
Natural, Graphite or Bone

**Burner Colours**

Available in:
Stainless Steel or Black

## Burner Ventilation and Efficiency*

| Fuel Type | Compatible Burner | Fuel Capacity | Heats on Average (Indoors) | Thermal Output Net (MAX per burner) | Approx. Burn Time | Minimum Room Size | Application[1] |
|---|---|---|---|---|---|---|---|
| e-NRG Bioethanol **e-NRG.com** | XL900 | 9 L [2.4 Gal] | Over 60 $m^2$ [645 $ft^2$] | 16 MJ/h, 15,000 BTU/h, 4.4 kW | 8 - 13 hours | 110 $m^3$ [3,884 $ft^3$] | Indoor & Outdoor |

*These values are indicative only and may vary depending on the model purchased, installation, and the seasonal resource used to manufacture e-NRG. [1]For Indoor Use, additional parts are required. Your chosen application is the ONLY application the model can be used in due to modified configuration of the model. Please advise your Sales Representative at time of purchase so that the product can be configured accordingly. This model complies with existing standards in the USA, Europe, UK and Australia. O-TL listed to UL 1370, EN 16647 BSI Certified and ACCC Safety Mandate compliant. **To comply with EN 16647 the Indoor Safety Tray must be installed before operating indoors. Line drawings show concrete models with the optional Recessed Glass Fire Screen and XL900 Burner.

**For more information please reference the Clearance & Installation Manual**
